WEB DEVELOPMENT EXPERIENCE:

GENERAL ASSEMBLY | JANUARY 2018-APRIL 2018

- Integrated front-end to a web application using a modern JavaScript library, and used CSS to layout and style your application.
- Built web applications using Ruby on Rails and MVC framework.
- Built APIs using mongo DB and integrate data from other apps into the project.
- Collaborated with others and produce software as a team to develop, change, trouble shooting, and secure an application.
- Wrote secure applications and deploy them through third party services like Heroku.
- Collaborated within a team using Git

PROJECT

Fouth Project | <https://>
will coming soon
